

Project work

«New suppliers»

It includes some steps
When the documentation on a specific step
becomes «acceptable», a new step can be
activated

Steps (and required documentation)

- Specific problem formulation (to be documented in a Power Point file by means of verbal expressions)
- Structure of an MC model (with a tree that includes the main aspects/dimensions, criteria and weights)
- Model for ELECTRE III and/or ELECTRE Tri (evaluations; thresholds of indifference and/or preference, in relation to the adopted scales; needs of veto and parameters)
- Application of an ELECTRE method, result analysis, possible model revision, robustness analysis of the result
